

## GEORGIA-PUGET BASIN ECOZONE

# Help bring butterflies home to your garden

Native wildflowers are adapted to local climate and soils and require less care and watering once established. They provide sugar-filled nectar and protein-rich pollen for beneficial insects like local butterflies and wild bees. This regional native plant list includes wildflowers for the *Georgia-Puget Basin ecozone*, which includes: **Salt Spring Island, Saturna Island, Pender Island, Gabriola Island, Denman Island, Quadra Island and Cortes Island**. Always try to find local sources for native plants.

Common Yarrow

Fireweed

Large-Flowered Blue-Eyed Mary

Entire-Leaved Gumweed

Canada Goldenrod

Common Name	Botanical Name	Height	Flower Colour	Flower Season	Sun	Soil	Pollinators	Butterfly Host Plant
