

WEST HAIDA GWAII ECOZONE

# Help bring butterflies home to your garden

Native wildflowers are adapted to local climate and soils and require less care and watering once established. They provide sugar-filled nectar and protein-rich pollen for beneficial insects like local butterflies and wild bees. This regional native plant list includes wildflowers for the *West Haida Gwaii ecozone*, which includes: **Sewell Inlet, Queen Charlotte, Skidegate, Sandspit and Rose Harbour**. Always try to find local sources for native plants.
