

SOUTHWEST NOVA SCOTIA UPLANDS ECOZONE

Help bring butterflies home to your garden

Native wildflowers are adapted to local climate and soils and require less care and watering once established. They provide sugar-filled nectar and protein-rich pollen for beneficial insects like local butterflies and wild bees. This regional native plant list includes wildflowers for the *Southwest Nova Scotia Uplands ecozone*, which includes: **Bridgewater** and **Yarmouth**. Always try to find local sources for native plants.

Canada Goldenrod

Fireweed

Swamp Milkweed

Golden Ragwort

Joe Pye Weed
